THIS IS THE SECOND IN A SERIES OF GENERAL BIBLIOGRAPHIES
WHICH ARE BEING DEVELOPED TO DISSEMINATE INFORMATION
CONCERNING DOCUMENTS ANALYZED AT THE ERIC INFORMATION
ANALYSIS CENTER FOR SCIENCE EDUCATION. REPORTED ARE OVER 120
CITATIONS TO SELECTED DOCUMENTS RELATED TO TEACHER EDUCATION
IN SCIENCE EDUCATION. THE DOCUMENTS INCLUDED REPRESENT
RESEARCH REPORTS, RESEARCH REVIEWS, CONFERENCE REPORTS,
POSITION PAPERS, TEXTBOOKS, MANUALS, SPEECHES, AND NUMEROUS
OTHER TYPES. THE CITATIONS ARE CATEGORIZED IN ALPHABETICAL
ORDER BY AUTHOR AND INDICATE THE AVAILABILITY AND THE MAJOR
IDEAS OF THE DOCUMENT. GENERAL BIBLIOGRAPHIES HAVE BEEN OR
ARE BEING PREPARED FOR OTHER SELECTED AREAS IN SCIENCE
EDUCATION. ALL BIBLIOGRAPHIES WILL BE SUPPLEMENTED
PERIODICALLY AS MORE DOCUMENTS ARE PROCESSED BY THE ERIC
INFORMATION ANALYSIS CENTER FOR SCIENCE EDUCATION. (DS)

SCIENCE EDUCATION INFORMATION REPORTS

The Science Education Information Reports are being developed to disseminate information concerning documents analyzed at the ERIC Center for Science Education. The Reports include five types of publications. General Bibliographies are being issued to announce most documents processed by the Center for Science Education. These bibliographies are categorized by topics and indicate the availability of the document and the major ideas included in the document. Special Bibliographies are being developed to announce availability of documents in selected interest areas. These bibliographies will list most significant documents that have been published in the interest area. Guides to Resource Literature for Science Teachers are bibliographies that identify references for the professional growth of teachers at all levels of science teaching. This series will include six separate publications. State-of-the-Art Reports will be issued periodically to indicate implications of research for science teaching. Research Reviews will be issued to analyze and synthesize research related to science education over a period of several years.

The Science Education Information Reports will be announced in the SEIAC Newsletter as they become available.

GENERAL BIBLIOGRAPHIES

The General Bibliographies are being developed to announce the documents acquired and processed by the ERIC Information Analysis Center for Science Education. The bibliographies will focus on general topics. This bibliography announces most documents related to the topic that were included in the first 2,000 documents processed by this Center. Supplements will be issued every six months.

USING BIBLIOGRAPHIC CITATIONS

All documents are listed by similar bibliographic citations. A sample citation is explained for your convenience. You will find it helpful to study the explanation of the sample citation before using this bibliography.

EXPLANATION OF BIBLIOGRAPHIC CITATIONS

(1) (SE 001 505)

This is the Science Education Center's identification number for the document. It serves as the name for the document and our way of locating the material.

(2) (07 12 67)

The second field contains the date the citation was typed at our Center (July 12, 1967).

(3) (20 86 29)

Field three is a code for developing bibliographies. By using this code several kinds of bibliographies can be structured by retrieval specialists or by computer programs.

(4) 1

This field indicates the level of processing of the document.
1--cataloged and indexed
2--cataloged, indexed, and annotated or abstracted
3--announced in Research in Education

(5) (00 000 004)

The source of the document has also been coded for computer search. This number identifies where the document can be obtained. It usually designates the same source as field seven.

(6) KLOPFER, LEOPOLD E.

The principle author, editor, or organization associated with the writing of the document is listed.

(7) THE USE OF CASE HISTORIES IN SCIENCE TEACHING

Title of the document.

(8) SCHOOL SCIENCE AND MATHEMATICS

This indicates the source of the document or where it was obtained by the Center.

(9) (11 00 64)

This field designates the publication date of the document, (November, 1964). The first set of two numerics represents the month; the second, the day of the month; and the third, the year. In most cases the date is obtained from the document. In a few cases, when no date of publication is on the document, the date is estimated based on the best information available in the document.

(10) 4

Field ten identifies the number of pages in the document. This document contains four pages. Use of this field will provide information concerning the size of the document.

(11) *BIOLOGY, *CHEMISTRY, *SCIENCE HISTORY, *PHYSICS, *SCIENCE CASE HISTORIES, *SECONDARY SCHOOL SCIENCE, *TEACHING TECHNIQUES, PROGRAM DESCRIPTIONS

This field provides an indication of the ideas included in the document. Each term, such as *BIOLOGY, has been selected by an information analyst because the term is important for the identification of the document. Terms marked with an asterisk represent primary ideas in the document; the other terms represent ideas of lesser importance. You can use this information to narrow the number of documents you want to review.
